The outcome of the evaluation of the Board members has also been shared with the Nomination Committee and the Nomination Committee has also discussed the composition of the Board of Directors in a longer perspective.

The Nomination Committee has dealt with all issues that the Nomination Committee are to deal with in accordance with the Swedish Code of Corporate Governance, including (a) the Board's competence and ability with regard to the company's operations and development stage, (b) the Board's size, (c) the Board's composition on the members' experience, gender and background, (d) the Board members' fees, (e) proposals for the election of auditors and audit fees, and (f) how the Nomination Committee is to be appointed to the 2023 annual general meeting. The Nomination Committee's motivated statement

The Nomination Committee is of the view that it has a good overview of the Board of Directors' work. The conclusion is that the Board of Directors functions well and is composed of individuals with qualifications that meet the strategic and operational requirements imposed on Nordisk Bergteknik. The Nomination Committee is of the opinion that the Board members complement each other well as regards qualifications and experience and that the work of the Board of Directors is conducted efficiently and professionally. The Nomination Committee's assessment is that the Board members have the time and availability required to perform their duties. Moreover, diversity and gender equality perspectives have been discussed as it is the opinion of the Nomination Committee that they are of importance in the Board composition. The long-term objective is that the Board of Directors shall be composed of members of different age, gender, geographical origin and with a diversified academic and professional background.

Provided that the AGM resolves in accordance with the Nomination Committee's proposal, one out of five Board members will be female. The Nomination Committee notes that the proposed Board does not meet the target of an equal gender board representation as set out in the Swedish Corporate Governance Code. However, the Nomination Committee intends to continue its long-term work

towards the target set out in the Swedish Corporate Governance Code. The Nomination Committee's assessment is that the proposed Board, which is comprised of five members, is appropriate in consideration of Nordisk Bergteknik's operations, current stage of development and general situation.

Considering the above, the Nomination Committee has proposed re-election of Victor Örn, Göran Näsholm, Mats O. Paulsson, Marie Osberg and Ljot Strömseng. Mats O. Paulsson has been proposed as Chairman of the Board.

Information regarding the members of the Board of Directors proposed to be re-elected and new elected is available on the Company's website, www.nordiskbergteknik.se.

Independence of proposed members

In assessing the independence of the proposed Board members, the Nomination Committee has found that its proposal for the Board of Directors in the company meets the requirements for independence set out in the Swedish Code of Corporate Governance (Sw. Svensk kod för bolagsstyrning). The composition of the Board is deemed to meet the requirement that at least two of the Board members who are independent in relation to the company and the company management are also independent in relation to the company's major shareholders, in that Mats O. Paulsson, Marie Osberg and Ljot Strömseng are considered to be independent in relation to both the company and the company management as well as the company's major shareholders. Victor Örn and Göran Näsholm are considered to be independent to the company and the company management, but not in relation to major shareholders.
